1.4. The winning unique numbers, as well as the winners of the daily draws, are selected randomly.

1.5. The total prize pool of the campaign is **\$1,000,000**.

1.6. A total of \$700,000 will be distributed over 14 days (the campaign period) among participants who complete the daily tasks, while \$300,000 will be drawn among all unique numbers received by clients in the final draw.

2. Rules of Participation

2.1. All registered Pocket Option clients can participate in the campaign.

2.2. Participation in the campaign is free and only requires reaching the specified trading turnover (hereinafter referred to as "TT") conditions.

2.3. All rewards are credited to the Market section.

2.4. The results of the daily draws are published daily in the Daily Tasks section, and the result of the final draw is published separately after the campaign ends.

2.5. For customer convenience, USD currency is used in this event. Please note that amounts in your account currency are converted at the current exchange rate.

3. Campaign Sections (The Campaign Includes Two Main Sections)

3.1. Receiving and Tracking Unique Numbers (My Numbers Section)

3.1.1. Participants receive 1 unique number for every \$50 of trading turnover or the equivalent in the client's account currency.

3.1.2. Each unique number received will automatically participate in the final draw and does not require additional activation.

3.1.3. Ticket Multipliers – multipliers for trading turnover:

- **\$1,000 TT** – Multiplier **x2**
- **\$7,000 TT** – Multiplier **x3**
- **\$15,000 TT** – Multiplier **x4**
- **\$100,000 TT** – Multiplier **x5**

Example of unlocking ticket multipliers:

- If a client reaches a trading turnover of \$1,000, they unlock a number multiplier, meaning that for every \$50 of trading turnover, they now receive 2 numbers instead of 1.
- If a client reaches a trading turnover of \$7,000, they unlock a number multiplier, meaning that for every \$50 of trading turnover, they now receive 3 numbers instead of 1.

3.1.4. A progress bar on the campaign page displays the user's current trading turnover and key multiplier levels.

3.1.5. The number of unique numbers a client can receive is not limited.

3.2. Receiving Daily Rewards in the Draw (Daily Tasks Section)

3.2.1. Every day, \$50,000 is drawn, with a total daily rewards prize pool of \$700,000 over the 14-day campaign period.

3.2.2. Each day winners are determined based on completed tasks.

Tasks:

- **Task 1 "Topaz"**
 - Required **TT**: \$150
 - Upon completion, the client receives a personal promo code for a 100% deposit bonus starting from \$100.
- **Task 2 "Sapphire"**

 - The client qualifies for a \$25,000 draw:
 - Total daily winners: 801
 - 1 winner receives \$1,000
 - 800 winners receive \$30
 - Depositing \$100 or more within the trading day doubles the chance of winning (x2).
- **Task 3 "Emerald"**
 - Required **TT**: \$3,500
 - The client qualifies for a \$15,000 draw:

3.2.3. Depositing funds is not a required condition for participating in the daily draw, but it increases the chances of winning. This means that a participant's ID appears multiple times in the daily draw participant table. For example, upon reaching \$400 TT in a trading day, depositing \$100 will make the participant appear in the table twice (x2 chance).

3.2.4. The trading day for daily tasks starts at 00:00 GMT+2 and ends at 00:00 GMT+2 the next day.

3.2.5. At the end of the trading day, all progress from the previous day is reset.
